ANOTHER ANTI BLACK LIST ACT

Senator Cumiff of Yavapai
Introduces Anti-Blacklist
Bill Which Prohibits In-
quiring Into Employees'
Past

The senate is determined to pass an anti black list law of some kind or other. It is but a few days since an anti black list law was indefinitely postponed in the senate, yet in face of this, and the well expressed opinion of ten of the senators, another bill on the same subject was introduced yesterday by Senator Cumiff of Yavapai, who by the way made a record for introducing the greatest number of bills on any one subject in one day by placing five bills in succession upon the table all dealing with the marriage and divorce problem.

The bill is a short three section affair, the second section telling that the bill is cumulative to a bill passed at the first session of the state legislature, the penalties being those of the former bill. The third section repeals all conflicting statutes. It is in the first section that the meat of the proposition lies. It is as follows:

Section 1. It shall be unlawful for any employer, whether corporation, association, partnership, or individual to require from any person seeking employment therewith or therefor, or employed thereby as a condition of such employment, any spoken or written, or printed request or authorization of or to any former employer of such person, or any other person, firm, association, or corporation, to furnish or communicate information regarding said person seeking employment or so employed.
